

How to Order a Supplement

Follow the steps below to submit a supplement request.

Last Updated: June 2026 • Version 1.0

What Is a Supplement?

A supplement is a formal request to verify or update specific credit report information on an existing report. Supplements may be used when a borrower's credit file needs to reflect a recent payment, balance change, account status update, or other correction supported by acceptable documentation.

■ Important Reminder

A supplement is a request — not a guarantee. Supplements do not replace a new credit report and do not guarantee creditor or bureau updates. Whether a creditor or bureau updates the information depends on their response, documentation, and applicable requirements.

Step-by-Step Instructions

Step 1 | Log In to the Correct Account

Before starting the request, make sure you are logged in to the correct ISC account for the borrower file you need to update.

Step 2 | Open the Borrower File

Once logged in, open the borrower's credit file, then:

- Locate the **Add-On Products** area in the upper-right section of the file.
- Click **Request Supplement**.
