

PowerProfile Plus — Guide

Understanding PowerProfile Plus and how it fits into mortgage prequalification and review workflows.

Last Updated: June 2026 • Version 1.0

What Is PowerProfile Plus?

PowerProfile Plus is a soft-pull credit product used for mortgage prequalification and review workflows where permitted by lender, investor, and AUS requirements.

It provides soft-pull credit data — including scores and bureau information — without creating a hard inquiry on the borrower's credit file.

Because PowerProfile Plus does not create a hard inquiry, it is not expected to impact the borrower's credit score the way a traditional hard inquiry may. However, score behavior can vary depending on the scoring model, bureau, and individual credit profile.

Key Characteristics

✓ No Hard Inquiry

Does not appear as a hard inquiry on the borrower's credit file. Not expected to impact the score the way a hard inquiry may.

✓ Credit Data and Scores

Provides credit data including scores and bureau information to support prequalification and review workflows.

✓ Reissuable to DU / LPA

May be reissuable to Desktop Underwriter (DU) or Loan Product Advisor (LPA) depending on account setup and system requirements.

■ Hard Pull May Still Be Required

A hard pull may still be required before closing, funding, or final loan approval depending on lender, investor, AUS, and compliance requirements.

PowerProfile Plus vs. Traditional Hard Pulls

Feature	Standard Hard Pull	PowerProfile Plus
Creates hard inquiry	Yes	No
Credit data and scores	Yes	Yes
Reissuable to DU / LPA	Yes	Depending on setup
May require later hard pull before closing or funding	Not typically applicable	Yes — depending on lender, investor, AUS, and compliance requirements

■ Important Limitation

PowerProfile Plus is not a guaranteed substitute for a hard pull in all situations. PowerProfile Plus should not be assumed to satisfy all lender, investor, AUS, or closing requirements. Clients should confirm applicability with their lender and compliance team before relying on PowerProfile Plus for any workflow step.

✓ Key Takeaway

PowerProfile Plus may support prequalification and review workflows, but it should not be assumed to satisfy all lender, investor, AUS, or closing requirements.

Not sure whether PowerProfile Plus fits your workflow? Contact ISC Credit at (800) 290-2801 so our team can help review setup and usage requirements.

This guide is for general workflow education only. Requirements may vary by lender, investor, AUS, credit bureau, account setup, and applicable law. ISC Credit does not make underwriting or credit approval decisions. Clients should follow their own company policies, investor guidelines, and compliance requirements.
