

Harborline Mortgage Partners, LLC

ISC Waypoint Quarterly Report

PERIOD June 1 - August 31, 2026 **PREPARED** September 4, 2026**CONFIDENTIAL** Prepared for this account only **ILLUSTRATIVE SAMPLE** not a real account

BORROWER ORDERS 170	USERS ORDERING 26	3-BUREAU 90.0%	MEDIAN SCORE 720
WORTH A SECOND LOOK \$1,545	WAITING ON A BUREAU 10	COST PER ORDER \$120	NET BILLED \$20,449

Three months, read for direction rather than detail. Order volume held roughly steady between June and August, at 56 and 56. The number of people ordering in a month fell from 19 to 15. The credit profile of the files being ordered moved down: files under 620 went from **8%** of scored orders to **13%**. File level detail for any month is in that month's report.

THE QUARTER

Where the business went

Volume and spend, month by month. The change column compares August with June. Color is used only where a direction is clearly favorable or not; everything else is shown in gray because the direction is a matter for you rather than for us.

	June	July	August	Change
Borrower orders	56	58	56	no change
Net billed	\$7,014	\$7,173	\$6,262	-11%
Cost per order	\$125.24	\$123.68	\$111.83	-11%
Median score	716	726	718	no change
Three bureaus returned	91.1%	96.6%	82.1%	-9 pts
Worth a second look	\$516	\$235	\$793	+54%
Repeat pulls worth a question	3	2	3	no change
Still waiting on a bureau at August 31	3	0	7	

June		56
July		58
August		56

The median score moved between 716 and 726 across the quarter. Files still waiting are counted by the month they were ordered, as of August 31. The latest month always carries the most, because its files have had the least time to clear, so that row is not a trend. The same is true in part of worth a second look: a paid pull with no middle score in the last month may still be recovered.

BY BRANCH

Where each branch went

Orders by branch, month by month, with the quarter's spend and median score. Each order sits in the branch of the user who placed it, as set on the ISC account. The colors match each branch's pages in the monthly reports.

Branch	June	July	August	Change	Net Billed	Cost / Order	Median Score	Still Waiting
Northshore	43	41	44	+2%	\$15,627	\$122.09	718	7
Canyon Ridge	13	17	12	-8%	\$4,822	\$114.82	726	3
Company	56	58	56	no change	\$20,449	\$120.29	720	10

BORROWER MIX

How the borrower mix changed

The share of scored orders in each band. This describes the credit profile of the files ordered. It says nothing about whether any borrower qualifies for anything.

Middle score band	June	July	August	Change
780 and above	23%	18%	19%	-3 pts
740 to 779	15%	20%	15%	no change
700 to 739	26%	32%	26%	-1 pts
660 to 699	13%	21%	17%	+4 pts
620 to 659	15%	5%	11%	-4 pts
Under 620	8%	4%	13%	+5 pts

Leverage held roughly steady. Borrowers using more than 90% of their available revolving credit:

Files under 620 went from 8% of scored orders in June to 13% in August.

THE TEAM

How the team is distributed

Orders placed under each user, by month, with the quarter's repeat pulls worth a question and files still waiting on a bureau. Sorted by quarter volume, not ranked. This counts orders, not performance.

Loan officer	June	July	August	Quarter	Worth a Question	Waiting	
Ramona Estes	10	8	7	25	0	1	ORDERS DOWN
Oswaldo Vanterpool	6	6	8	20	2	1	ORDERS UP
Janine Prothero	7	6	0	13	0	0	NONE IN AUGUST
Leona Vantrease	2	7	4	13	1	0	
Tamsin Castellan	4	6	2	12	0	1	ORDERS DOWN
Dorian Raghavan	4	0	8	12	1	2	ORDERS UP
Grady Whitlock	2	2	6	10	0	1	
Yuna Hedlund	3	1	5	9	0	0	
Desmond Achterberg	3	4	0	7	0	0	NONE IN AUGUST
Kit Sommerfeld	0	3	4	7	0	1	STARTED IN JULY
Maren Ostrowski	2	3	0	5	0	1	NONE IN AUGUST
Delpha Okafor	4	1	0	5	2	0	NONE IN AUGUST
Hollis Tremblay	2	2	0	4	0	0	NONE IN AUGUST
Tessa Moorcroft	0	3	1	4	1	0	STARTED IN JULY
Theo Lindqvist	0	0	4	4	1	0	STARTED IN AUGUST
Rafe Ducharme	1	1	1	3	0	0	
Brett Halvorsen	1	2	0	3	0	0	NONE IN AUGUST
Company	56	58	56	170	8	10	

Loan officer	June	July	August	Quarter	Worth a Question	Waiting
Brynn Hallowell	1	0	2	3	0	1
Others (8 users, fewer than 3 orders each)	4	3	4	11	0	1
Company	56	58	56	170	8	10

Order volume was broadly flat across the quarter, so any movement here is inside the team rather than in the total. Worth a Question counts repeat pulls the file does not explain, using the same rule as the monthly report. Increases and decreases are only tagged where there are enough orders behind them to call it a pattern.

SERVICES

What the team is using

Billing lines by product family. A line is an order placed, not a file.

Product	June	July	August	Quarter
Supplements	33	27	25	85
Credit simulations	9	3	6	18
Verifications	1	3	2	6
Rapid rescues	3	3	0	6
Frozen bureau copies	3	4	2	9
Refreshes	0	1	0	1

Across the quarter 15 borrowers had a credit simulation; 0 later had a rapid rescore and 4 later had a supplement, so about 73% of simulations were not followed by either.

PIPELINE

Ninety days of bureau problems

Files where a bureau returned no score and no copy followed. The oldest have been open for the length of the quarter.

Ordered in	Still missing a bureau	Share of that month
June	3	5.4%
July	0	0.0%
August	7	12.5%
Quarter	10	5.9%

Open since June. *These are the ones worth a borrower call before anything else is ordered on them.*

Borrower	File #	Bureaus that did not return	Order date	Days open	Billed to
Crestmore, Brant	1605931	Applicant EQF+TUC, Co-applicant EQF	06/01/2026	91	Tamsin Castellan
Dunton, Quinn	1606541	Applicant EQF	06/08/2026	84	Dorian Raghavan
Redford, Dov	1608375	Co-applicant EQF+EXP+TUC	06/25/2026	67	Maren Ostrowski

6 files were recovered during the quarter through a frozen bureau copy, at a total cost of \$192.00, with only the missing bureaus charged.

METHODOLOGY

Built from this account's own credit order and billing records for June 1 - August 31, 2026. Counts are borrower orders: of 219 credit files opened in the quarter, 6 are frozen bureau copies of another file, 42 are split or edited copies of an existing order and 1 are refresh orders, leaving 170 original orders. Worth a second look and repeat pulls worth a question use the same rules as the monthly report. A middle score is used only where all three bureaus returned a score. Figures shown by user count orders and are sorted by volume, never ranked. Figures by user describe orders, not the performance of a person.

Illustrative sample. Company, branch, user and borrower names are invented and the figures are representative. This is not a real client account.

Prepared by ISC Credit exclusively for this account. The layout, measures and analysis in this report are proprietary to Information Searching Company and are provided for this client's internal use. Not for redistribution.

Net Billed Activity is Charge minus Credit from the ISC Activity Summary. It is a usage and monetary activity measure, not ISC gross profit and not the client's revenue.

This report does not determine mortgage eligibility, approval likelihood, credit improvement potential, or whether a borrower is being actively worked.

File level detail for any month in this quarter is in that month's ISC Waypoint Monthly Report.
